Science Group
Udayan Higher Secondary School, Dhaka
07/2014 - 06/2016   *Overall GPA: 5.00 out of 5.00*

PROJECTS

Twitter Clone(Laravel Framework) (08/2020 - Present)
- In this project I made a interface as like as twitter and users can register then login their twitter account. They can tweet a post. They can follows another user. In the user timeline user can see only his/her tweet and also seen their following user tweets. Only Authenticate user can edit their pro le. Working on this project and add more features.

Smart Searcher(Django Framework) (07/2020 - 09/2020)
- The smart searcher can smartly search and implement a good interface with title, url, image, price.

We for Orphans(Laravel Framework) (07/2019 - 11/2019)
- In most of the orphanage there is no proper management system. The management team is not proper educated infect they are even not aware about how to manage kids properly. In our system orphanage can manage the whole management properly. Anyone can donate and they can see how their donation amount distribute

Bachelor(Raw PHP, HTML5, CSS3, Bootstrap4) (04/2019 - 07/2019)
- The project aims to provide service to Bachelor.In this project the students or Job holders who are Bachelor rent at or room or a single sit and also rent or buy furniture like bed, table, chair etc

Attendance Management System(C Programming)
 (03/2018 - 07/2017)
- The project aims to take attendance of student and teacher. calculate the percentage of attendance. If any student absent 2 days over then a message sent to their parents. It also calculate marks out of 5 to the student attendance.
